

Kids - CIAP finger puppets

Fair Trade Hand Knitted Finger Puppets

Handmade by **CIAP** in **Peru**.

These finger puppets are made by women's groups organized in associations in the highland areas of Puno. Approximately 60 women are involved in production, some of whom are in the rural areas on the banks of Lake Titikaka. Handicraft production allows the women to supplement the small income which their families make from farming. The finger puppets are crocheted from drawings.
