## Recycled Glassware

Crisil is our first supplier from Bolivia. Our first container of this high quality glassware almost sold out as soon as it arrived. A small, family-run business, Crisil provides an income for over 500 families, although unfortunately they've been hit hard by Covid. It's a great, eco product, made from 100% recycled glass. The glass is broken up, washed and melted before being mouth-blown and shaped into glasses, jugs and other products. All products are made to a very high standard and are dishwasher safe.

## Take a look at these!

A fantastic range of upcycled glasses from Chile. We met with Green Glass at the WFTO Conference in Lima two years ago and were immediately impressed, especially by the way their glasses might appeal to young people.

Completely unique, we've never seen anything like them! They've been a huge success in Chile, and we're sure they will be in Britain too.
