### Why is bamboo viscose great to wear?

- it's supersoft

- it's comfortable
- it's naturally anti-bacterial
- it's durable and stronger than cotton
- it's hypo allergenic

## Bamboo socks

Put your feet up and enjoy our fabulous fancy Fair Trade footwear, and help save the planet too!

### Why Bamboo and not cotton?

There are many reasons why bamboo viscose yarn is good for the environment.

Bamboo grows without the need for fertilisers or pesticides. Because it naturally requires less water (a third of the water required to grow cotton), farmers don't need to irrigate their crop, saving water in a country where water shortages are a big problem.

Bamboo yields are ten times higher per hectare than cotton and the plant rarely needs replanting, sprouting on its own. Bamboo yarns require less dye than cotton and keep their colour for longer.

# Conserve - Recycled bags Handmade in India

Conserve is a Fair Trade business in New Delhi, India, run by women and dedicated to upcycling some of the rubbish which litters India's streets and waterways. In 15 years they have trained over 1,200 individuals in their techniques, who now make a living independently, 'from nothing' – there is no garbage! They aim to encourage as many people as possible to make recycling and upcycling a part of their culture; they're also a great livelihood system for Delhi's rag pickers.

These jewellery stands are made in Bali from jempinis wood, also known as the Umbrella Tree. Native to Australasia, jempinis is not considered endangered in the wild. The stands are fantastic for displaying necklaces, earrings, bangles, bracelets, and rings both to retail customers in shop and on the dressing table at home.
