

# Worry dolls

The women who make these worry dolls live mostly in the rural areas of Guatemala. Making them provides an important supplement to the income they get from agriculture.

They're a great eco product as they are made from recycled fabric and cotton offcuts.

# Personalised worry dolls

We can't cover all your worries, but we're doing our best!  
 Especially recommended: political worries (note the resemblance to a certain person?), health worries (less of a worry, we hope, as the year goes by), weather worries (we're in the UK after all) and global warming worries (more and more in the coming years).
