How to be cool!

A brilliant range of upcycled glasses from Chile. We met with Green Glass at the WFTO Conference in Lima three years ago and were immediately impressed.

It's a business run by a young guy recently out of school, and the packaging he's created is absolutely fantastic, turning what would be a great present into a fabulous one.

Recycled Glassware

Crisil is our first supplier from Bolivia. Our first container of this high quality glassware almost sold out as soon as it arrived. A small, family-run business, Crisil provides an income for over 500 families, although unfortunately they've been hit hard by Covid. It's a great, eco product, made from 100% recycled glass. The glass is broken up, washed and melted before being mouth-blown and shaped into glasses, jugs and other products. All products are made to a very high standard and are dishwasher safe.
