## Hair and bathroom

Our carefully handcrafted combs are made of Neem wood, a sustainable, strong, durable material that has many health benefits such as:

- beautiful
- authentic - no mass production here!
- eco-friendly
- exploitation-free

made by women from remote villages in Bengal, India, who receive fair pay for their work.

# Handmade soaps & shampoos

We've been selling these great soaps and solid shampoos from Soap-n-Scent, a WFTO member in Chiang Mai, Thailand, for several years.

All SNS soaps are cruelty free, made with pure vegetable oils that do not clog skin pores. They also contain glycerin, a by-product of Soap-n-Scent's homemade process, which improves the skin's moisture balance by holding moisture on your skin without interfering with the skin's natural functions. Only the purest of essential oils are used.

The only palm oil used in these soaps is RSPO certified, the internationally recognised certification for sustainably farmed palm oil.

**Save plastic!**  
Shampoo bars are easy to use and generally last longer than bottled shampoo.  
Highly recommended.

## Loofahs!

The loofah is a dried-out gourd of the cucumber family. It's an excellent scrubber for sinks, tiles and other hard surfaces, and it's a great exfoliating sponge helping to give you clean and healthy skin. It can also be used as a soap dish, its porous quality allowing soap to dry out fast.

## Hemp

We have developed this range with our Fair Trade suppliers in Bangladesh and are really pleased with it. Hemp absorbs enormous quantities of CO<sub>2</sub>, it grows without chemicals in poor soil and prevents soil erosion, in a word it's a perfect crop for small producers and for tackling climate change too. It's breathable, strong and durable, an excellent bathroom accessory that's well worth trying out.
