

Recycled bike baskets

Tyres may be fun to play with but they can also be upcycled and turned into products, like these fantastic new bike baskets from India. There's even one made from sweet wrappers.

Bike chain, nuts and bolts

Bestselling range

These bike chain products are made in a Fair Trade workshop in Moradabad, Northern India.

The recycled bicycle chains come from two sources: 60% are collected from bicycle repair centres and 40% are cut-offs/loose waste from factories and big shops.

Such quirky items always catch customers' attention and are excellent gifts for men and all passionate cyclists!

Recycled brass chimes

Waste brass is melted down and poured into moulds to make the bells. Making brass from new zinc and copper is uneconomical, so recycling creates a sustainable industry. Melting down a variety of brass alloys creates a rich array of warm golden hues.

Recycled fertiliser bags

These innovative products are made from recycled plastic fertiliser bags.

Fertiliser bags tend to be recycled and turned back into fertiliser bags...We thought why not turn them into more exciting products that people can enjoy?

The colours are stunning and immediately we introduced them into our shop in York, they started selling.

We're continuing to tackle plastic pollution and create ways in which plastic can be re-used and not wasted.
