

# Musical instruments from Bali

From jembe drums and thunder spring drums to Australian didgeridoos, from shakers to bamboo flutes, glockenspiels and rainsticks, whistles, panpipes and thumb pianos, there is something here for everyone.

Many of these instruments are made with sustainable, locally-sourced bamboo and often feature the vibrant dot design art that is so well known from the aboriginal cultures of Australia.

# Wind instruments

Bamboo grows quickly, requires no irrigation, pesticides or fertilisers, sequesters carbon, and inhibits soil erosion, making it is one of the most sustainable materials there is for craft production.
