

# Personalised worry dolls

We can't cover all your worries, but we're doing our best!

Speech is powerful - the act of verbalising your worry and assigning a worry for your doll to work during your sleep can be very beneficial.

Worry dolls are now often used in modern day paediatrics and psychiatry treatment, especially in cases of trauma and abuse.

Worried about something we haven't catered for? Do let us know!

Worry dolls are a great eco product as they are made from recycled fabric and cotton offcuts.

Worry dolls are made by hand in Guatemala. You can buy some of them individually but we recommend the point of sale boxes which are excellent for attracting attention and increasing sales.

Our worry doll supplier is based in Antigua, an old city full of cobbled streets. Our suppliers have a carpentry workshop to make the display boxes you see in these pages.
