Wind instruments

Bamboo grows quickly, requires no irrigation, pesticides or fertilisers, sequesters carbon, and inhibits soil erosion, making it one of the most sustainable materials there is for craft production.

Djembe drums

A djembe is a rope-tuned, skin covered goblet drum played with bare hands, originally from West Africa. According to the Bambara people in Mali, the name 'djembe' comes from the saying 'anke dje, anke be' which translates to 'everyone gather together in peace'. We've been selling djembes from Bali for years and they continue to sell well.
