## A Greener Future

Shampoo bars are essentially concentrated bars of shampoo which eliminate the need for plastic bottles. By using them, you contribute to a reduction in plastic waste that would otherwise end up in landfills or oceans.

They're also made from natural ingredients, better for your skin. They're vegan, 100% biodegradable and not tested on animals.

NoWay!ste soaps are beneficial too. Liquid soap uses **5x more energy** and creates **15x more transport emissions**. And they last about **7 times** as long as the same weight of liquid soaps.
