Bamboo socks

Put your feet up and enjoy our fabulous and fancy Fair Trade footwear from Shared Earth, your favourite Fair Trade sock designers!

Why Bamboo and not cotton?

There are many reasons why bamboo viscose yarn is good for the environment.

Bamboo grows without the need for fertilisers or pesticides. Because it naturally requires less water (a third of the water required to grow cotton), farmers don't need to irrigate their crop, saving water in a country where water shortages are a big problem.

Bamboo yields are ten times higher per hectare than cotton and the plant rarely needs replanting, sprouting on its own. Bamboo yarns require less dye than cotton and keep their colour for longer.

Why is bamboo viscose great to wear?

- it's supersoft
- it's 40% more moisture absorbant than cotton
- it's a breathable fabric that keeps feet fresh and dry
- it's comfortable
- it's naturally anti-bacterial
- it's durable and stronger than cotton
- it's hypo allergenic

animal beach bags

Like you we are alarmed at the many threats facing the natural world..

We have designed this unique range of beach bags, featuring endangered species, to raise awareness of threatened animal species around the world.

Each bag comes with a designer label that explains about the individual animal and the main threats that it faces, primarily from human activity.

The bags are screen printed and assembled by a Fair Trade producer group in India so buying these beautiful and colourful bags promotes Fair Trade and artisan crafts in India too!

ASP1915

ASP1914
Ring-tailed lemur

Shared Earth are making a contribution of 20p for each bag sold to the World Wildlife Fund (WWF) to help the promotion of understanding and action to protect our planet's biodiversity.

In the first year, your purchases of these bags - nearly 4,000 of them - have raised £750 for WWF!

ASP1912
Chilean flamingo

ASP1913
Philippine pangolin

Endangered species collection

Conservation Status: Vulnerable
Main Threats: Restricted, fragmented range
 Cape Dwarf Chameleons are found in the canopy of forests, bushes and urban gardens. They grow up to 15cm in length, have prehensile tails and claws designed for gripping twigs. When provoked they can inflate themselves to look bigger.
 Habitat loss due to urbanisation is the key threat. They are also subject to predation by domestic cats and caught by the pet trade. Climate change and further habitat loss is predicted to see their habitat shrink by a further 50% by 2050.

hey jute

Have Your Own Branded Jute Bags Printed!

In 3 Easy Steps!

Shared Earth can produce bespoke designs on our jute bags for you. Here's how...

1.

Select a bag style, background jute colour and have your logo or design ready that you'd like on the front and back of the bag. You can have different artwork on the front and back of the bag; the cost only increases with additional colours.

Style 1
Landscape
32 x 42 x 12cm
Non padded handles 49cm

Style 2
Portrait
39 x 36 x 13cm
Non padded handles 49cm

Style 3
Square
30 x 30 x 20cm
Padded handles 36cm

Style 4
Landscape
32 x 42 x 18cm
Padded handles 49cm

2.

Once you've sent through your request, we'll send you a mock-up for your approval and discuss pricing and quantities. The cost is based upon the number of colours in your artwork including the background jute colour (no extra charge for natural jute) and there are no additional costs for printing or delivery.

Style 1, 2 and 3	1 colour	2 colour	3 colour	4 colour
	250-1000 units	£2.60	£2.69	£2.78
1000+ units	£2.50	£2.59	£2.68	£2.77

Style 4	1 colour	2 colour	3 colour	4 colour
	250-1000 units	£2.75	£2.84	£2.93
1000+ units	£2.65	£2.74	£2.83	£2.92

3.

If you are happy to go ahead, we will get a sample created for your approval. Then production can begin and we'll provide you with an estimated delivery date. We keep our pricing very competitive by shipping by sea, so the lead time is usually about 4 months.

A customer says: "These have been a great way of promoting our shop and have been bought as a souvenir by lots of people who visited us for the first time especially to buy one. We had a complicated design with lots of colours but were very pleased with the end result - the screen printing quality is fantastic. It was essential to us that they were ethically traded but they are also a nice and sturdy bag, with a very reasonable price tag." Harrogate Fair Trade Shop

To discuss your requirements in more detail please don't hesitate to contact us on 01904 670321 or at sales@shareearth.co.uk. We'll be happy to provide advice on bag style, artwork and any additional information you may need.

Recycled fabric bags

Handmade in India

Karm Marg, the organisation that makes these accessories, started as a kitchen for railway and street children in Delhi.

Twenty years later it is a home for over sixty children. These bags are made in one of its workshops, which are managed by the children themselves when they reach the age of 18. They are handmade in India from recycled fabrics, making each item completely unique.

NEW RANGE !

Our African jewellery ranges are produced by artisan groups working in the slums of Nairobi.

The project provides training and employment. As a Fair Trade company Shared Earth is committed to helping to alleviate poverty and we know that many of our wholesale customers share this ambition.

Many African countries are struggling to develop their economies and raise the standard of living of their people, and we will be working actively with producers in Kenya and Madagascar to develop ranges of exciting new products - jewellery, soapstone, raffia, etc. - over the coming year.

Crayon jewellery

An effortless blends of fun, colour and recycling!

The crayons used in this jewellery are factory rejects and our supplier collects them from a small town 200km from Delhi - a great example of creative recycling. All metal components in this jewellery are brass, and are nickel free. Each item comes in varying colours due to the crayons' recycled nature.

Jewellery stands

These new jewellery stands are made in Bali from jempinis wood, also known as the Umbrella Tree (botanical name: melia azedarach). Native to Australasia, jempinis has been introduced across the world and is not considered endangered in the wild. The stands are fantastic for displaying necklaces, earrings, bangles, bracelets, and rings both to retail customers in shop and on the dressing table at home.

NEW RANGE !

Worry doll jewellery

The women who make these worry dolls live mostly in the rural areas of Guatemala. Making them provides an important supplement to the income they get from agriculture.
