## Handmade soaps

We've been selling these great soaps from Soap-n-Scent, a World Fair Trade member in Chiang Mai, Thailand, for three years.

All SnS soaps are cruelty free, made with pure vegetable oils that do not clog skin pores. They also contain glycerin, a by-product of Soap-n-Scent's homemade process, which improves the skin's moisture balance by attracting holding moisture on your skin without interfering with the skin's natural functions. Only the purest of essential oils are used.

The only palm oil used in these soaps is RSPO certified, the internationally recognised certification for sustainably farmed palm oil.

## Solid shampoos

Our range of solid shampoo bars gives a Fair Trade alternative to plastic bottles.

We've added five new scents to this popular product and we have ensured no more individual plastic wrapping.

## Ditching the plastic!

We've been listening to you and we've been working with SnS to reduce plastic packaging. From now on the soaps are to be wrapped in paper.

A single large plastic wrap will protect the content of large boxes from water/moisture ingress in transit and that's it! May be over time we can get rid of that too.

## Cut work oil burners from Thailand

A stunning range of oil burners and incense holders featuring a beautiful blue glaze and a mix of textured sandstone or smooth glossy celadon glazing. What makes this collection extra special is the intricately hand cut patterns that adorn the surface of the porcelain, and the rich turquoise glazing.

We have met some of the highly skilled artisans on our trips to Thailand and have been hugely impressed by their craft skills. Employees are paid a fair wage and receive bonuses as incentives for hard work and punctuality. The working conditions are also very good.
