Telephone: 01904 670321

Our planet matters!

Fair Trade and climate action go hand in hand. The communities most threatened by droughts, floods, encroaching deserts etc are those in the global South, where our artisans live and work. By choosing eco-friendly, Fair Trade products, you're making a real difference to those who need it most.

Carbon emissions

Shipping goods across the oceans, using fossil fuels, is one of the main ways we contribute to global warming. Until recently, we supported GoodShipping, which runs ships using biofuels. Now, we have decided to estimate the emissions caused by our shipping, and offset them through the Joliba Trust, an excellent charity which plants trees to prevent desertification in Mali.

40 years of Shared Earth!

Who would have believed it, Shared Earth is 40 years old this November. To mark this anniversary, we're launching over 1,000 new products. There's something for everyone... bamboo sock gift sets, high quality soft toys, new jute and tote bags, a terrific choice of organic fragrances, loads of new jewellery, and quirky items like animal tape measures (p230), and 'smoking dragons' (right and p95). Customers love our products; they're on-trend and affordable, and we're dispatching orders quickly from our new warehouse.

Many of our products are recycled – from army tents, paint and milk cans, old bed legs, artillery shells, even scissors, padlocks and redundant water wheel buckets! We are the top distributor of eco-friendly gifts in Europe; our commitment to tackling climate change is as strong as ever.

We started wholesaling 30 years ago, with a small range of greetings cards, made in the UK. Now we're buying from over 50 suppliers, in 20 different countries. One of our suppliers is on our Board, and we're continuing to forge alliances around the world to help create a fairer, sustainable future.

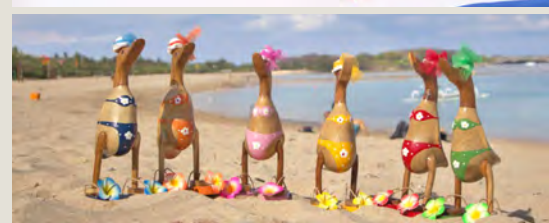

Join us, support our artisans and help create this better world!

Jeremy Piercy (MD and founder)

David, Paula, Gina, James (wholesale team)

We are tackling climate change!

MEET OUR RECYCLED COTTON Tote Bags!

We've campaigned against plastic bags for years, urging you to use long lasting jute bags instead. What about cotton? Even if you use it 100 times, a cotton bag may be as bad. To grow the cotton for 1 bag, you need - guess what? - 2,000 litres of water. In countries like India, hit by drought more and more as climate change worsens, water is a scarce commodity.

MEET OUR Jute Bags!

The world uses more than 500 billion plastic bags each year – that's 150 for each person on the planet! They're completely unnecessary and it's clear what we should do – use long-life bags instead, as we always used to. These jute bags are an excellent, eco-friendly option. Jute is a great fibre, fast-growing, biodegradable and recyclable. It needs far less land and water to grow than cotton, and is grown without pesticides or fertilisers.

Have Your Own Bags Printed!

Shared Earth can produce bespoke designs on our jute bags for you, also on our recycled cotton tote bags. Here's how...

1.

Select a bag style, background colour and have your logo or design ready that you'd like on the front and back of the bag. You can have different artwork on the front and back of the bag; the cost only increases with additional colours.

2.

Once you've sent through your request, we'll send you a mock-up for your approval and discuss pricing and quantities. The cost is based upon the number of colours in your artwork including the background jute colour (no extra charge for natural jute) and there are no additional costs for printing or delivery.

3.

If you are happy to go ahead, we will get a sample created for your approval. Then production can begin and we'll provide you with an estimated delivery date. We keep our pricing very competitive by shipping by sea, so the lead time is usually about 4 months.

A customer says: "These have been a great way of promoting our shop and have been bought as a souvenir by lots of people who visited us for the first time especially to buy one. We had a complicated design with lots of colours but were very pleased with the end result - the screen printing quality is fantastic. It was essential to us that they were ethically traded but they are also a nice and sturdy bag, with a very reasonable price tag." Harrogate Fair Trade Shop

To discuss your requirements in more detail please don't hesitate to contact us on 01904 670321 or at sales@sharedearth.co.uk. We'll be happy to provide advice on bag style, artwork and any additional information you may need.

Canvas and Leather Bags

We love these new bags, handmade with canvas and leather, from a one-woman business in New Delhi. Diksha only started her business in January last year and we were her first customer. We think she's done a fantastic job in such a short time, with so many different styles and sizes of bag – you'll love them when you see the quality. We're teaching her about Fair Trade and sustainability and look forward to a bright future together.

Canvas and Leather Purses

Beaches can be so much more than ice cream, fish and chips and deck chairs. They're an eco world of their own with many fascinating creatures to see if you look for them, birds for instance if you go early in the day before the crowds arrive, or to special habitats where puffins, gannets and waders can be seen.

Animal bags and aprons

Size approx. 38x62cm

Like you we are alarmed at the many threats facing the natural world..

We have designed this unique range of beach bags, featuring endangered species, to raise awareness of threatened animal species around the world.

Each bag comes with a designer label that explains about the individual animal and the main threats that it faces, primarily from human activity.

The bags are screen printed and assembled by a Fair Trade producer group in India so buying these beautiful and colourful bags promotes Fair Trade and artisan crafts in India too!

MEET OUR Bamboo Socks!

We've had a lot of issues buying bamboo socks from India, so we've decided to buy from China, like everyone else. The bamboo yarn had to be shipped from China to India previously, so there are environmental reasons to do so too. The new company we use has FSC certification for the viscose bamboo yarn (raw material before dyeing), OEKE-tex 100 for the yarn from the dyeing mill (including polyamide etc) (where treatment of all waste water, gas and solids is also monitored) and SEDEX for production, ensuring good standards and conditions for workers.

Sock sizes:

MED (Medium):

UK 3-7

Euro 36-41

LAR (Large):

UK 7-12

Euro 41-47

Yarn Composition:

75% bamboo viscose

22% polyamide

3% elastane

Why Bamboo, not cotton?

There are many reasons why bamboo viscose yarn is good for the environment.

Bamboo grows without need for fertilisers or pesticides, It naturally requires less water (a third of the water required to grow cotton), so farmers don't need to irrigate their crop, saving water in a country where water shortages are a big problem.

Bamboo yields are ten times higher per hectare than cotton and the plant rarely needs replanting, sprouting on its own. Bamboo yarns require less dye than cotton and keep their colour for longer.

Why is bamboo viscose great to wear?

- it's supersoft
- it absorbs 40% more moisture than cotton
- it's a breathable fabric keeping feet fresh and dry
- it's comfortable
- it's naturally anti-bacterial
- it's durable and stronger than cotton
- it's hypo allergenic

Cotton is one of the worst fabrics for the planet. Growing it uses huge amounts of water which would be used for other crops. Recycled cotton on the other hand bypasses the production stage and saves old textiles from being sent to the landfill.

Paper and batik fans

These popular fans, from Thailand and Bali, are made of bamboo and either cotton or Saa paper. The Thai fans are then handpainted while the Balinese fans have a cotton cloth with printed batik style motifs.
