

Orgone pyramids

Orgone pyramids are believed to attract and convert negative energy into positive energy. Benefits may include spiritual growth, physical healing, emotional well-being, protection and a harmonious environment.

Crystal Trees

Crystal trees are believed to enhance and balance energy, helping to make a more positive environment. The tree of course is a symbol of life, and apart from any other benefits, they're attractive artistic pieces. Handmade in India from small crystals and the left overs from the crystal industry.
