# Smoking Dragons

## NEW RANGE

We're VERY excited about these new 'smoking dragons', we think they're going to be really popular – a quirky new idea which hasn't hit the market yet. Have one on your counter and customers will be intrigued. Just light an incense cone under the dragon (a large space is carved out) and the scent (and smoke) comes out of its nostrils. They're hand-carved in Bali from local albesia wood. Not to be left unattended.
