NEW RANGE

These oil burners have a beautiful blue glaze and a mix of textured sandstone or smooth glossy celadon glazing. What makes them extra special is the intricate hand cut patterns, which require a high level of skill. Sunida, the woman who started the business 30 years ago, is proud of the quality and unique feel of the products she makes. 70% of the artisans are women, all of them paid well above the minimum wage and working according to Fair Trade principles. The packaging used is recycled.

Filigree t-lite holders

Place these Indian t-lite holders against a wall and they transform the room, casting intricate lacework shadows that shift in the dancing flame of the candle. They make excellent gifts. Made with 50% recycled iron.

Shampoo Bars

Shampoo bars are essentially concentrated bars of shampoo which eliminate the need for plastic bottles. By using them, you contribute to a reduction in plastic waste that would otherwise end up in landfills or oceans.

They're also made from natural ingredients, better for your skin. They're vegan, 100% biodegradable and not tested on animals.
