

# Worry dolls

The women who make these worry dolls live mostly in the rural areas of Guatemala. Making them provides an important supplement to the income they get from agriculture.

# Personalised worry dolls

We have more to worry about than any other company in the UK!

We can't cover all your worries, but we're doing our best! Especially recommended: political worries (note the resemblance to a certain person?), health worries (less of a worry, we hope, as the year goes by), weather worries (we're in the UK after all) and global warming worries (more and more in the coming years).

# Our Planet Matters

The oceans, plastic, carbon emissions, the rainforests – we believe that there’s a lot to worry about. There’s also hope for the future and we can do a lot to make things better and change the downwards slide – in our lifestyles, in our work places, in how we set our priorities. As businesses, we can make a huge contribution. Let’s get away from the idea of ‘growth, growth, growth’ and look to a world which is sustainable for future generations. What can we buy and sell which will make for a better world?.
